

## Management of Change Workflow with Process Safety Enterprise®

**A web-based workflow process and project management solution**

Process Safety Enterprise® is the ultimate enterprise system that administers workflows, manages data and documents, enables knowledge sharing, and enhances communication and collaboration.

### Streamlining workflow and Management of Change (MOC)

Management of Change Workflow, as part of Process Safety Enterprise®, incorporates a workflow and business rules engine that enables management of entire business processes such as MOC, compliance assurance, incident investigation and capital projects. It is designed to easily track action items, approvals, status, etc. for any workflow. Process Safety Enterprise® also possesses extensive PSM compliance applications.

### Features

- Auditability
- PSM compliance
- Action tracking module
- Workflow management
- Document libraries
- Dynamic forms modules
- Reporting
- Centralized action item tracking
- Enterprise configuration capabilities
- Web-based application

## About ioMosaic Corporation

Through innovation and dedication to continual improvement, ioMosaic has become a leading provider of integrated process safety and risk management solutions. ioMosaic has expertise in a wide variety of areas, including pressure relief systems design, process safety management, expert litigation support, laboratory services, training and software development.

ioMosaic is an integrated process safety and risk management consulting firm focused on helping you manage and reduce episodic risk. Because when safety, efficiency, and compliance are improved, you can sleep better at night. Our over 300 years of combined industry expertise allow us the flexibility, resources and capabilities to determine what you need to reduce and manage episodic risk, maintain compliance and prevent injuries and catastrophic incidents.

Our mission is to help you protect your people, your plant, your profits, and our planet.
