ioAuditor™ for Process Safety Enterprise®

Daniel Nguyen - 2017-07-04 - Comments (0) - ioAuditor™

ioAuditor™ records the results of any type of audit including process safety management and risk management plan compliance audits. Combine with Process Safety Enterprise® for a fully integrated process safety management solution.

Record the Results of Any Type of Audit With Ease. The software comes with audit templates for the following issues:

- OSHA's PSM standard (29 CFR 1910.119)
- NEP emphasis audit
- EPA RMP elements (40 CFR Part 68)
- OSHA's VPP PSM audit guidance
- Recognized and generally accepted good engineering practices (RAGAGEPs)
- Combustible dust hazard checklist
- CCPS risk-based process safety elements
