ioLogic™ for Process Safety Enterprise®

Daniel Nguyen - 2017-07-04 - Comments (0) - ioLogic™

ioLogic™ is a unique software package that makes it easy to create and edit fault trees for any purpose. ioLogic™ offers a “what you see is what you get” graphical user interface that instantly generates compact, pleasing new layouts whenever a user edits the tree. Combine with Process Safety Enterprise® for a fully integrated Process Safety Management solution.
