Enriched Learning with Launch of PStv® White Paper Video Channel

2019-07-09 - Corporate Communications - Comments (0) - News

Learn Key Concepts

Process Safety tv®, the world's first video streaming platform dedicated to process safety, launches a new channel on white paper videos. This channel brings process safety white papers to life with animations of key concepts, calculation variables, and scenarios conditions to enrich learning.

Focused on Process Safety

Videos focus on relevant industry issues and practices to help viewers gain a better understanding or to broaden their knowledge. Topics covered include PRV stability, facility siting, relief and flare systems, RAGAGEP, and more. Papers are authored by Georges A. Melhem, Ph.D., FAIChE, who is well known for his contributions to relief systems and PRV stability evaluation methods.

To see these videos in action, please sign up for PStv® today at www.process-safety.tv.
