PHA Software Competitive Upgrade Offer

2022-05-06 - Corporate Communications - Comments (0) - News

Are you using PHA software? Choose or switch to PHAGlobal® v.11 and get more features while reducing your budget! Through June 30, 2022, purchase or upgrade your current Process Hazard Analysis (PHA) software with the latest PHAGlobal® software available and get 50% off the regular price for 1 year.*

**Note PHAGlobal® can import legacy data from other PHA software. Current users of PHAGlobal® can also take advantage of this 50% offer. This offer cannot be combined with other special offers.*

New PHAGlobal® Features

It is critical to identify flaws in the design of facilities and processes that may result in chemical releases, fires, or explosions. Watch this video to see why PHAGlobal® is the most useful and cost-effective PHA/DHA tool available on the market. PHAGlobal® has been optimized with improved performance, greater flexibility, simplified installation, and hassle-free customization tools.

Read the White Paper

Read the ioMosaic white paper, **PHA Studies and Compliance Made Easy**, by Marcel Amorós-Martí and John Barker for a look at PHAGlobal®. Included is a comparative analysis of PHAGlobal® features with other commercially available solutions and several case studies.
