See What the Latest ioViewer Can Do for You

Process Safety Office® ioViewer is a complimentary reporting utility developed to generate and view reports from any Process Safety Office® SuperChems™ software, including SuperChems™ for DIERS and DIERS Lite.

To meet our client's needs, we have enhanced ioViewer to tap into and better analyze the vast, dynamic data produced by SuperChems™ as well as other Process Safety Office® applications.

New functionalities include:

• Generate reports for PHAGlobal® studies without the need to have PHAGlobal® software installed

• Generate reports for ioAuditor™ without the need to have the software installed

• Bug fixes for SuperChems™ report generation

Visit our website to download the latest version of ioViewer today.

How to Customize Report Options

Process Safety Office® ioViewer makes customizing report content easy. Follow these three steps to generate options you would like included in reports for SuperChems™, PHAGlobal®, and ioAuditor.

1. Click on “Report Options” tab.

2. Report contents are displayed; select the desired sections that need to be included in the report.

3. Click "OK" or immediately move onto the "Generate Report" tab to export the PDF report.
