

## Tap into Insight with Advanced Reporting from Process Safety Office<sup>®</sup> ioViewer

2019-03-06 - Corporate Communications - Comments (0) - News

### See What the Latest ioViewer Can Do for You

Process Safety Office<sup>®</sup> ioViewer is a complimentary reporting utility developed to generate and view reports from any Process Safety Office<sup>®</sup> SuperChems<sup>™</sup> software, including SuperChems<sup>™</sup> for DIERS and DIERS Lite.

To meet our client's needs, we have enhanced ioViewer to tap into and better analyze the vast, dynamic data produced by SuperChems<sup>™</sup> as well as other Process Safety Office<sup>®</sup> applications.

New functionalities include:

- Generate reports for PHAGlobal<sup>®</sup> studies without the need to have PHAGlobal<sup>®</sup> software installed
- Generate reports for ioAuditor<sup>™</sup> without the need to have the software installed
- Bug fixes for SuperChems<sup>™</sup> report generation

Visit our website to [download the latest version of ioViewer](#) today.

### How to Customize Report Options

Process Safety Office<sup>®</sup> ioViewer makes customizing report content easy. Follow these three steps to generate options you would like included in reports for SuperChems<sup>™</sup>, PHAGlobal<sup>®</sup>, and ioAuditor.

1. Click on "Report Options" tab.
2. Report contents are displayed; select the desired sections that need to be included in the report.

3. Click "OK" or immediately move onto the "Generate Report" tab to export the PDF report.
